yet another pyjail

> CTFs without jails are boooring, innit?

> CTFs without jails are boooring, innit?

About the Challenge

This is a classic PyJail chall where we need to escape from the sandbox to obtain the flag. We got a python file that looks like this

```
import ast, code, sys
blacklist = "abcdefghijklmnopqrstuvwxyzABCDEFHJKLMNOPQRSTUVWXYZ1234567890"

entry=r"""
Welcome, enjoy your stay...

     \                ###########                /
      \                #########                 /
       \                                         /
        \                                       /
         \                                     /
          \                                   /
