I think someone downloaded something from an http site.
Luckily I caught the traffic. I'm super curious about what it was. Let's go hunt! (doo, doo, doo, doo, doo, doo)

Here, we are given the file [baby_shark1.pcap](#). The challenge description says I think someone downloaded something from an http site. , so we will look at the http traffic.

Opening this up on Wireshark shows the following,

If we go to File > Export Objects > HTTP , and click on Preview for packet 15, we can see the flag,

Therefore, the flag is,

utflag{eye_c_what_u_c}
