Rocket Raccoon (Category: OSINT)

The challenge is the following.

Challenge

140 Solves

Rocket Raccoon

ROCKET RACCOON

286

Who is 'racckoonn' exactly? Intel has that their owner has leaked some private information.

Submit

We are given the username `racckoonn` , so I started by looking up this name on [InstantUsername](#).

RaccKoon

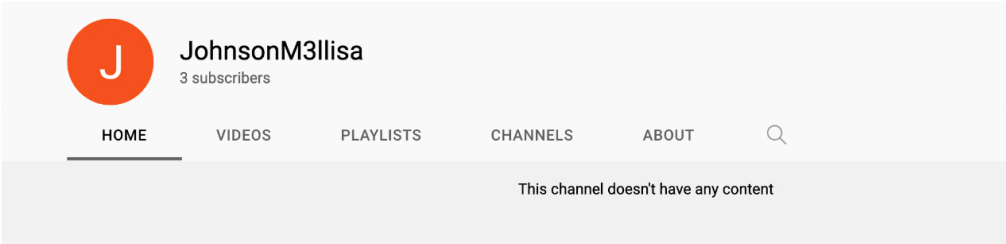

Hi I'm the RaccKoon! I sleep and eat 🦡

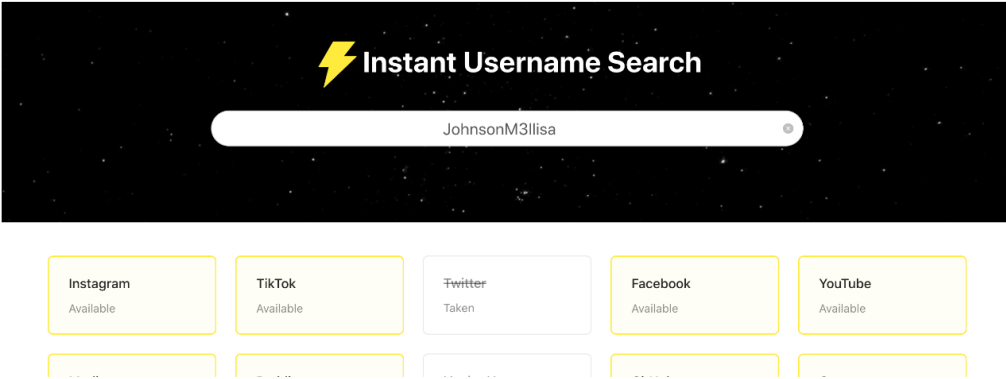

I looked through their pictures, and found [this image](#).

So I went to the <https://www.youtube.com/channel/UCDurVPcUypifNkJVrHxJ3vQ>,

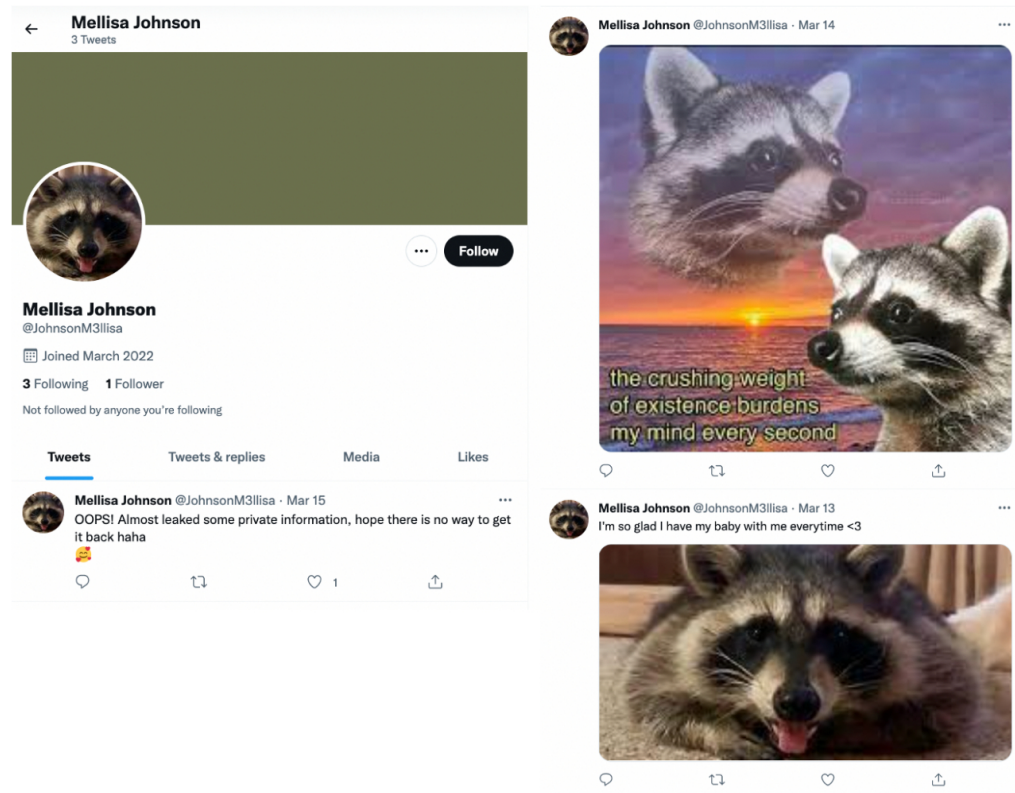

However, there are no videos. So I assumed that I will have to use the username 'JohnsonM3llisa' for further investigation. I went to [InstantUsername](#) again, and looked that username up.

I went ahead and started with [JohnsonM3llisa's Twitter](#).

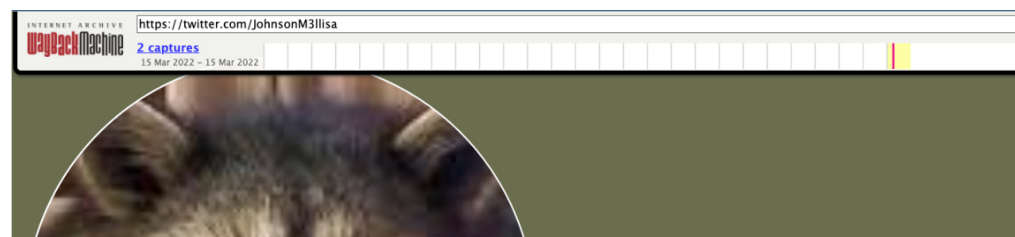

[This tweet](#) caught my eye, and I immediately assumed that I was supposed to use the [Wayback Machine](#) to look at the deleted Tweets.

So I went ahead and [searched their Twitter account on the Wayback Machine](#), and saw that there were snapshots on March 15, 2022.

I opened up [the snapshot on March 15, 2022](#), and saw the following.
