Challenge   ✕

Stegano 0x0004

200

Don't download pirated music guys, it's not respectful towards the artist.

For this challenge, we are given a wav file.

Link: https://github.com/joeyjon123/riftCTF/blob/master/chall4.wav

Listening to the audio, there doesn't seem to be anything unusual. Opening the file in Audacity and checking the spectrogram doesn't reveal the flag. We decide to run strings just in case.

Command and Results: https://github.com/joeyjon123/riftCTF/blob/master/stegstrings4.txt (Note: The file is very large and may not load on the browser. To view it, download the file and open it on your device.)

The flag is the very last output.

Flag: riftCTF{I_4m_th3_cr3at0r}
