`osint`

Our surveillance team has discovered another camera that has been left open to the world!

The microphone on this camera recently picked up the sound of gunfire from what we suspect to be the street outside. The team needs to confirm this.

Could you please find the NAME OF THE ROAD that runs outside the building this camera is in.

LIVE CAMERA FEED: http://50.100.241.155:8081

If you're having trouble viewing it, we've attached a screenshot of the camera in action.

For this challenge, we are given an image of a camera feed and are asked to find the road outside the building where this camera is located.

From the image of the feed, we see the words "The Birchmount Lofts" on the window. The skyline of Toronto is in the background and there is a cutout of a cat underneath.

Looking up this information, we find that the Birchmount Animal Hospital has a resort experience for cats called The Birchmount Lofts.

Link: https://vcacanada.com/birchmount/pet-resort/accommodations-feline

We click on their locations tab and discover that their address is 1563 Birchmount Road, Scarborough, Ontario, M1P 2H4.
